

***Cover letter***

**Surakarta, 30 Nopember 2020**

To:

Editor-in-Chief of Majalah Kedokteran Bandung (MKB)  
in Bandung, Indonesia

Dear Sir/Madam,

We wish to submit an original research article entitled "**Correlation of Serum Uric Acid Levels with The Severity of Coronary Artery Stenosis in Patients with Acute Coronary Syndrome: a systematic review and meta-analysis**" for consideration by Majalah Kedokteran Bandung.

We confirm that this work is original and that the manuscript has not been published elsewhere, nor is it currently under consideration for publication elsewhere. We also confirm that there is no falsification or fabrication of data and no plagiarized content in the article.

We believe that this manuscript is appropriate for publication by Majalah Kedokteran Bandung because Acute coronary syndrome (ACS) is a life-threatening disorder that remains a source of high morbidity and mortality despite advances in treatment. The association between serum uric acid and ischemic heart disease is controversial and has not been established as a cardiovascular risk factor. There has never been a systematic review and meta-analysis about the correlation of uric acid levels with the severity of coronary artery stenosis in ACS patients. All authors of this manuscript have approved the final version of this submitted manuscript.

We have no conflicts of interest to disclose.

Thank you for your consideration of this manuscript.

**Sincerely,**

[dr. Diding Heri Prasetyo, MSi., MKes., SpPD]

### ***Conflict of Interest Declaration***

Here by the author(s) certify(s) that the manuscript entitled :

### **Correlation of Serum Uric Acid Levels with The Severity of Coronary Artery Stenosis in Patients with Acute Coronary Syndrome: a systematic review and meta-analysis**

is an original work and is not under review at any other publication. All authors of this manuscript have approved the final version of this submitted manuscript and there is no financial interest to report. This manuscript is ready for publication in the Majalah Kedokteran Bandung (MKB).

Author (s) (please write your name with academic degree(s) and sign)
