Editor in Chief

International Journal of Integrated Health and Science

Dear Sir,

Please find the submission of our manuscript,

**Comparison of Cognitive Functions between  
Paroxysmal and Persistent Atrial Fibrillation Patients  
without Clinical Stroke**

which we would like to submit for publication in the International Journal of Integrated Health Science. In this manuscript, **we compared cognitive function between paroxysmal and persistent atrial fibrillation (AF) patients without clinical stroke, in terms of MoCA-Ina total score and MoCA-Ina cognitive subdomains scores. In this study, we found that cognitive function in paroxysmal AF patients did not show differences with persistent AF patients. Both AF groups had lower cognitive function than the general population without AF.**

Author and all co-authors have seen and agreed with the contents of the manuscript and there is no financial interest to report. We certify that the manuscript submitted is an original work and is not under review at any other publication. We thank you for considering our manuscript for publication in the International Journal of Integrated Health Science and look forward to hearing from you at your earliest convenience.

Sincerely yours,

**(Caepy Gomer)**
