

**Cover letter**

**Bandung, October 18, 2021**

To:

Editor-in-Chief of Majalah Kedokteran Bandung (MKB)  
in Bandung, Indonesia

Dear Sir/Madam,

We wish to submit an original research article entitled "Correlation between expressions of estrogen receptor $\beta$  (ER $\beta$ ), protein neurofilament (NF) and protein gene product 9.5 (PGP9.5) as a marker of etiopathogenesis of pain on adenomyosis" for consideration by Majalah Kedokteran Bandung.

We confirm that this work is original and that the manuscript has not been published elsewhere, nor is it currently under consideration for publication elsewhere. We also confirm that there is no falsification or fabrication of data and no plagiarized content in the article.

We believe that this manuscript is appropriate for publication by Majalah Kedokteran Bandung because our study shown that adenomyosis generated pain results of increased PGP9.5 and NF protein, as a new insight in pain management therapy for ademyosis patient. All authors of this manuscript have approved the final version of this submitted manuscript.

We have no conflicts of interest to disclose.

Thank you for your consideration of this manuscript.

**Sincerely,**

A handwritten signature in blue ink, appearing to read 'Arief Setiawan', with a long, sweeping flourish extending upwards and to the right.

Arief Setiawan

***Conflict of Interest Declaration***

Here by the author(s) certify(s) that the manuscript entitled :

Correlation between expressions of estrogen receptor $\beta$  (ER $\beta$ ), protein neurofilament (NF) and protein gene product 9.5 (PGP9.5) as a marker of etiopathogenesis of pain on adenomyosis

is an original work and is not under review at any other publication. All authors of this manuscript have approved the final version of this submitted manuscript and there is no financial interest to report. This manuscript is ready for publication in the Majalah Kedokteran Bandung (MKB).
